MRS. C. L. CHADWICK HOOTED BY CROWDS ON HER ARRIVAL

WOMAN IS AGAIN INDICTED

GRAND JURY RETURNS FIVE MORE TRUE BILLS AGAINST FE-MALE FINANCIER.

Cleveland, O., Dec. 15 .- Five times indicted by the United States at the exact minute that her train rolled into the station, Mrs. Cassie L. She is now held in Cell 14 in the women's department of the jail, and her palatial residence on Euclid avenue, of which the furnishings alone are The Big Magnificant City Production valued at \$200,000, is occupied by her maid.

Courage Held to the Last.

Her courage held to the last, but her body failed her and when she had mounted the three flights of stairs Chadwick upon her appearance and leading to the tier of cells where she is to remain, she collapsed utterly and fell in a dead faint. When the train drew into the station at Cleveland, Mrs. Chadwick caught a glimpse of the great crowds which swarmed about the train shed and was grouped on vantage points on the heights surrounding the station. She instinctively shrank back into a corner of the drawing room and said: "I cannot see why all those people should be here."

Greeted by No Friendly Face.

After the train had been emptied of its passengers United States Marshal Chandler of Ohio stepped aboard her car, the "Aida," and made his way to the drawing room, where he was introduced to Mrs. Chadwick, who asked that she be taken out as speedily as possible and preceded by Emil Chadwick and Freda Swanstrom, the nurse, the party made its way to the platform and thence through the dense crowds to a carriage in waiting.

The crowd had become impatient with the delay of Mrs. Chadwick's whistle. As soon as Mrs. Chadwick, her son and nurse appeared on the car platform and stepped to the station, Mrs. Chadwick being supported by wick was recognized by the crowd and

Soon after reaching her cell Mrs. Chadwick was searched by the matron, but nothing was taken from her.

JAPANESE SUCCEED IN TORPEDO-ING THE RUSSIAN BATTLE-SHIP SEVASTOPOL.

ENTIRE FLEET IS DESTROYED

WORK OF JAPANESE NAVY END-ED FOR PRESENT AND VES-SELS WILL DOCK.

Tokio, Dec. 15 .- It is reported that the Japanese have successfully torpedoed the Russian battleship Sevastopol, the only Russian warship that had escaped destruction, being docked when the other vessels were sunk after the Japanese captured 203-Meter hill. She escaped from dock and harbor Tuesday night and anchored under a protecting mountain. Some torpedo craft were also outside of the harbor.

The tremendous price in life paid by the Japanese for the capture of 203-Meter hill has been redeemed by the utter destruction of the Russian fleet. The Japanese fleet will now go into

FOUR MORE RUSSIAN VESSELS ARE PUT OUT OF ACTION AT PORT ARTHUR.

CITY STREETS ARE DESERTED. Lonely Patrols Alone Visible at Port Arthur.

Headquarters of the Third Japanese Army, via Fusan, Dec. 15.—Every part of the city and harbor of Port Arthur is visible from 203-Meter hill. The streets of the city are deserted, and but few soldiers are doing patrol duty. Many buildings have been burned. and others shattered. The shelters of the harbor present a strange appearance, with the turrets, masts and funnels of warships showing just above the water. There is not a vessel afloat in the harbor. The docks and buildings on the water-front are torn and burned.

The Japanese shells reach every part of the city and harbor.

The Japanese are working their advance on the shores of Pigeon bay on comparatively level ground against the Taiyankow, Idzchan and Antzeshan forts. The approaches to the fortifications are easy, but the forts are enormously strong, and the near approach will be all the more difficult, as the sapping of trenches will have to be done through frozen ground.

The naval guns mounted on 203 Meter hill will be able to cover the advance of infantry against any of the western forts. QUIET AROUND MUKDEN.

### MUSIC AND DRAMA.

"THE TENDERFOOT" TONIGHT.

"The Tenderfoot" company arrived from Winnipeg this afternoon and the best musical comedy ever witnessed in Brainerd will be seen at the Brainerd opera house tonight.

It is doubtful if any new musical play has met with an equal measure of success to that which has perched on the banners of "The Tenderfoot," the latest and most successful production of the Dearborn Theatre management, which has been responsible also for "The Burgomaster," "The Storks" and "The Ex-

plorers.' The scene being laid in Southwestern Texas, near the Mexican border, there is a veritable riot of kaleidoscopic colorcostuming. Dainty black-eyed senoitas; swarthy vaqueros; half breeds; peons; brawny, burly cavalry troopers; cowboys, ranchmen and Indians constitute the types shown in the chorus.

As a marked contrast in this varied assortment, there is a party of eastern college girls on a western tour in charge of a staid and dryly humorous pedagogue. It is this latter worthy who gives the piece its title. His first entrance on a donkey, which has an automobile license card attached to its nether extremity, is screamingly funny, and from this incident the humor never flags until the final fall of the curtain. The book is consistent and direct and possesses an element of interest as well as humor. The musical score contains many brilliantly tuneful numbers which causes them to linger in one's mind indefinitely. In fact one of them, "My Alamo Love," has been elevated to the proud distinction of a prominent place in the

### GRAND JURY HAS COMPLETED WORK

Seven Indictments Were Returned by this Body Last Evening in District Court

TWO OF THESE NOW IN CUSTODY

Case of Bonness & Howe vs John Jenkinson Still on This Afternoon.

The grand jury completed its work last evening. Seven indictments were brought into court and the judge dising in the pictorial environment and charged the gentlemen. They filed no written report with the court.

> Of the seven indictments brought in there are but two of the men in custody, William Coffin and John Nowatmy. Coffin is charged with forgery in the second degree and has been confined in the county jail for several months. He is the young man who instituted a sort of Chadwick campaign in this county last year and then skipped out to his home at Litchfield. He was apprehended there and brought back to Brainerd. He forged the name of several leading business men of the city.

Nowatmy is charged with grand larceny in the second degree. He is the man who stole some merchandis from the store of Con O'Brien.

The case of Bonness & Howe vs John Jenkinson is still on in the district court. It is thought the case will go to the jury this afternoon.

### STOLE THIRTY CENTS WORTH

But Had to Answer to the Charge of Petit Larceny in the Municipal Court this Morning.

It is not often that a man who only steals thirty cents is arrested, thrown in jail and made to appear in court to answer to the charge, but such was the case with Gus Anderson and Martin Heder, who were before Judge Warner this morning. ### MUSIC AND DRAMA.

"THE TENDERFOOT" TONIGHT.

"The Tenderfoot" company arrived from Winnipeg this afternoon and the best musical comedy ever witnessed in Brainerd will be seen at the Brainerd opera house tonight.

It is doubtful if any new musical play has met with an equal measure of success to that which has perched on the banners of "The Tenderfoot," the latest and most successful production of the Dearborn Theatre management, which has been responsible also for "The Burgomaster," "The Storks" and "The Ex-

The scene being laid in Southwestern Texas, near the Mexican border, there is a veritable riot of kaleidoscopic coloring in the pictorial environment and costuming. Dainty black-eyed senoitas; swarthy vaqueros; half breeds; peons; brawny, burly cavalry troopers; cow boys, ranchmen and Indians constitute the types shown in the chorus.

As a marked contrast in this varied as sortment, there is a party of eastern college girls on a western tour in charge of a staid and dryly humorous pedagogue. It is this latter worthy who gives the piece its title. His first entrance on a donkey, which has an automobile license card attached to its nether extremity, is screamingly funny, and from this incihad responded that "order shall be dent the humor never flags until the final fall of the curtain. "The Sign of the Cross," Wilson Barrett's world-renonwned drama, will be the attraction at the Brainerd opera house Tuesday, Dec. 20.

Rome in the days of Nero, when sumpt uous vice and profligate luxury ruled the Emperor and his court, is the theme of many powerful novels, but Mr. Bar rett was the first to reproduce on the stage the magnificent surroundings of the noble pagans contrasted with the poverty and privations of the despised Christians. Scenically the production is said to be most complete and beautiful, and one of the largest productions

on the road. The company is composed of twenty-two players of note, and the fact that Mr. Berger, so long identified with the late Sol Smith Russell, is the manager, assures a production that is first class in every particular. Mr. Berger has bought the American rights of the piece and the company that will be seen in this city is one of the best that has ever presented the play in this country, including Walter Law, the eminent young English actor.

### **GRAND JURY HAS COMPLETED WORK**

Seven Indictments Were Returned by this Body Last Evening in District Court

TWO OF THESE NOW IN CUSTODY

### Case of Bonness & Howe vs John Jenkinson Still on This Afternoon.

The grand jury completed its work last evening. Seven indictments were brought into court and the judge discharged the gentlemen. They filed no written report with the court.

Of the seven indictments brought in there are but two of the men in custody, William Coffin and John Nowatmy. Coffin is charged with forgery in the second degree and has been confined in the county jail for several months. He is the young man who instituted a sort of Chadwick campaign in this county last year and then skipped out to his home at Litchfield. He was apprehended there and brought back to Brainerd. He forged the name of several leading business men of the city.

Nowatmy is charged with grand larceny in the second degree. He is the man who stole some merchandis from the store of Con O'Brien.

The case of Bonness & Howe vs John Jenkinson is still on in the district court. It is thought the case will go to the jury this afternoon.

### STOLE THIRTY CENTS WORTH

But Had to Answer to the Charge of Petit Larceny in the Municipal Court this Morning.

It is not often that a man who only steals thirty cents is arrested, thrown in jail and made to appear in court to answer to the charge, but such was the case with Gus Anderson and Martin Heder, who were before Judge Warner this morning. They were charged with stealing thirty cents worth of potatoes and both pleaded guilty to the charge and were fined \$10 in default of which they were given a sentence of ten days

The company is composed of twenty-two players of note, and the fact that Mr. Berger, so long identified with the late Sol Smith Russell, is the manager, assures a production that is first class in every particular. The Washington decision reads in part as follows:

"I am of the opinion that the nature of the defendant's employment is an excuse for his absence from December to June, 1903, that if his absence during this time is not excusable it appears he had cured his lapses in June, 1903, before he was served with notice, or had any knowledge of the contest. Your office decision is affirmed and the contest ordered dismissed.""

SHERIFF TANNER TAKES NEAL

Mrs. Erickson Delivered the Prisoner Over While The Sheriff was out the City

Sheriff Tanner of Morrison county seems to have made a coup de grace on the local authorities and this morning took Jesse Neal, alias Jesse Coe, alias Zeb Taylor back to Little Falls with him, notwithstanding the man was to have had a hearing in municipal court at 10 o'clock before Judge Warner, charged with robbing the Cole department store at Pequot.

Neal is one of the three men arrested a short time ago in the Plummer house. The other two men were taken to Little Falls by Sheriff Tanner the day after their arrest here and they have been held to the Morrison county grand jury on the charge of holding up Operator Fuller at the Little Falls depot. Neal was supposed to have been the ring leader of the trio and he with the other two men are thought to have committed the crime at Little Falls, but the local authorities were about as equally positive that Neal was the man who enter-You can buy suits and overcoats at ed the store of A. SECRETARY OF THE TREASURY ANALYZES DRAWBACK ON EXPORT FLOUR.

THE NORTHWEST AFFECTED

LOSS OF EXPORT TRADE A VERY SERIOUS MATTER TO THE WHEAT GROWERS.

Washington, Dec. 15.-At the request of Secretary Shaw, representatives of leading flour interests of the United States were at the treasury department Wednesday in conference over the subject of the regulations under contemplation to allow drawbacks on exported flour made in part from imported wheat. During the conference the secretary questioned the millers present on several matters of above that of Canada. The millers detail in connection with the milling are only asking what the law normity of wheat, the condition of export trade and the necessity for the action | mitted to the attorner general." asked for.

Among those present were representatives of the Sheffield-King Milling company and Pillsbury-Washburn Milling company of Minneapolis. At the conclusion of the conference,

the following statement made by Secretary Shaw was given out: "There are three distinct proposi-

tions covering the manufacture of flour for the export trade from import-

"First-For many years mills have been permitted to manufacture flour in bond. Under the law applicaple to such cases no duty is paid, but the imported wheat is taken to the bonded mill, there converted into flour and byproducts under government supervision and the entire product of the imported wheat is exported. Nothing goes into consumption and no duty is paid. Bran will not stand exportation, so this plan is not desirable

"Second-The law also authorizes the manufacture of flour from imported wheat in ordinary mills and a drawback equal to the duty on the wheat, less 1 per cent, is allowed when the entire product of the wheat is export ed. Under this provision, which has been in operation for a number of years and against which there has been no complaint, the mills import the wheat, ray the duty, convert it and evport the flour and the by-prodacta pass into consumption. The drawhack is then computed on the relative value of the exported flour and the home-consumed by-products.

Submitted to the Attorney General. "Third-The only proposition over which any controversy has arisen relates to the manufacture of flour composed in part of Canadian and in part | story. of home-grown wheat. The legal

torney general. It involves the same on in other manufactures.

"If the drawback on flour made from mixed wheat is allowed the regulation will be enforced so as to enforce duty on every bushel of Canadian wheat that comes in and drawback will be allowed on flour actually exported. The exportation of American-made flour has fallen off during the present season over one-half. If the European bakers that have been using Americanmade flour change it will be next to impossible to get the trade back, and It never can be gotten back unless the American farmer sells his wheat cheap enough to permit the American manu-

facturer to sell. "Two mills are now in process of construction in London each with a capacity of 4,000 barrels a day. Similar mills are being built at Belfast and other places. Canadian mills regular ly sell flour for export on the New York city market and it is then sent through the United States in bond and exported from New York. It might as well be cround at Minneapolis as elsewhere in this country, thereby holding the trade until conditions change. If the trade passes from the American mill to the European mill the injury to the Northwest will be past calculation. Today the price of American wheat is about 16 conts and the law question has been sul

Duluth, Dec. 15.—Details of the tragic death of Mrs. George Shirtz, at Grayling, Mich., has been received here. It seems that her fourteenyear-old boy in some manner had secured an old revolver and that when the mother entered the room and saw him she rushed to his side to wrest the weapon away from him. In so doing the revolver, still in the child's hand, went off and the bullet lodged in her breast, penetrating the lungs. She expired in great agony four hours later. Mrs. Shirtz formerly lived in

SECRETARY OF THE TREASURY ANALYZES DRAWBACK ON EXPORT FLOUR.

THE NORTHWEST AFFECTED

LOSS OF EXPORT TRADE A VERY SERIOUS MATTER TO THE WHEAT GROWERS.

Washington, Dec. 15.-At the request of Secretary Shaw, representatives of leading flour interests of the United States were at the treasury department Wednesday in conference over the subject of the regulations under contemplation to allow drawbacks on exported flour made in part from imported wheat. During the conference the secretary questioned the millers present on several matters of detail in connection with the milling of wheat, the condition of export trade and the necessity for the action

Among those present were representatives of the Sheffield-King Milling company and Pillsbury-Washburn Milling company of Minneapolis. At the conclusion of the conference, the following statement made by Sec

retary Shaw was given out: "There are three distinct propositions covering the manufacture of flour for the export trade from imported wheat:

"First-For many years mills have been permitted to manufacture flour in bond. Under the law applicaple to such cases no duty is paid, but the imported wheat is taken to the bonded mill, there converted into flour and byproducts under government supervision and the entire product of the imported wheat is exported. Nothing goes into consumption and no duty is paid. Bran will not stand exporta-

tion, so this plan is not desirable. "Second-The law also authorizes the manufacture of flour from import ed wheat in ordinary mills and a drawback equal to the duty on the wheat less 1 per cent, is allowed when the entire product of the wheat is export ed. Under this provision, which has been in operation for a number of years and against which there has been no complaint, the mills import the wheat, pay the duty, convert it and evport the flour and the by-preducts pass into consumption. The drawhack is then computed on the relative value of the exported flour and the home-consumed by-products.

Submitted to the Attorney General. "Third-The only proposition over The Dispatch prints all lates to the manufacture of flour composed in part of Canadian and in part of home grown wheat. The large which any controversy has arisen reposed in part of Canadian and in part | story.

question, however, as has been passed on in other manufactures.

"If the drawback on flour made from mixed wheat is allowed the regulation will be enforced so as to enforce duty on every bushel of Canadian wheat that comes in and drawback will be allowed on flour actually exported. The exportation of American-made flour has fallen off during the present season over one-half. If the European bakers that have been using Americanmade flour change it will be next to impossible to get the trade back, and It never can be sotten back unless the American farmer sells his wheat cheap enough to permit the American manufacturer to sell.

"Two mills are now in process of construction in London each with a capacity of 4,000 barrels a day. Similar mills are being built at Belfast and other places. Canadian mills regular ly sell flour for export on the New York city market and it is then sent through the United States in bond and exported from New York. It might as well be cround at Minneapolis as elsewhere in this country, thereby holding the trade until conditions change. If the trade passes from the American mill to the European mill the injury to the Northwest will be past calculation. Today the price of American wheat is about 16 conts above that of Canada. The millers are only asking what the law normits and the law question has been sub mitted to the attorner general."

> Duluth, Dec. 15.—Details of the tragic death of Mrs. George Shirtz, at Grayling, Mich., has been received here. It seems that her fourteenyear-old boy in some manner had secured an old revoiver and that when the mother entered the room and saw him she rushed to his side to wrest the weapon away from him. In so doing the revolver, still in the child's hand, went off and the bullet lodged in her breast, penetrating the lungs. She expired in great agony four hours later. Mrs. Shirtz formerly lived in

SECRETARY OF THE TREASURY ANALYZES DRAWBACK ON EXPORT FLOUR.

THE NORTHWEST AFFECTED

LOSS OF EXPORT TRADE A VERY SERIOUS MATTER TO THE WHEAT GROWERS.

Washington, Dec. 15.-At the request of Secretary Shaw, representatives of leading flour interests of the United States were at the treasury department Wednesday in conference over the subject of the regulations under contemplation to allow drawbacks on exported flour made in part from imported wheat. During the conference the secretary questioned the millers present on several matters of detail in connection with the milling are only asking what the law posmito of wheat, the condition of export trade and the necessity for the action asked for.

Among those present were representatives of the Sheffield-King Milling company and Pillsbury-Washburn Milling company of Minneapolis. At the conclusion of the conference,

the following statement made by Secretary Shaw was given out: "There are three distinct propositions covering the manufacture of

flour for the export trade from import-"First-For many years mills have been permitted to manufacture flour in bond. Under the law applicaple to such cases no duty is paid, but the imported wheat is taken to the bonded

mill, there converted into flour and byproducts under government supervision and the entire product of the imported wheat is exported. Nothing goes into consumption and no duty is paid. Bran will not stand exportation, so this plan is not desirable.

"Second-The law also authorizes the manufacture of flour from imported wheat in ordinary mills and a drawback equal to the duty on the wheat, less 1 per cent, is allowed when the entire product of the wheat is exported. Under this provision, which has been in operation for a number of been no complaint, the mills import the whest, pay the duty, convert it and evport the flour and the by-preducts pass into consumption. The drawhack is then computed on the relative value of the exported flour and the home-consumed by-products.

Submitted to the Attorney General. "Third-The only proposition over which any controversy has arisen re-

on in other manufactures.

"If the drawback on flour made from mixed wheat is allowed the regulation will be enforced so as to enforce duty on every bushel of Canadian wheat that comes in and drawback will be al lowed on flour actually exported. The exportation of American-made flour has fallen off during the present season over one-half. If the European bakers that have been using Americanmade flour change it will be next to impossible to get the trade back, and it never can be sotten back unless the American farmer sells his wheat cheap enough to permit the American manu

"Two mills are now in process of construction in London each with a capacity of 4,000 barrels a day. Similar mills are being built at Belfast and other places. Canadian mills regular ly sell flour for export on the New York city market and it is then sent through the United States in bond and elsewhere in this country, thereby holding the trade until conditions change. If the trade passes from the American mill to the European mill the injury to the Northwest will be past calculation. Today the price of American wheat is about 16 conts and the law question has been sub mitted to the attorner general."
